About Me

I'm a full stack web developer with 3 years of experience working in freelance and several startups in Singapore. Please visit my website darren.li for a more complete profile and my portfolio.

Work Experience

Jan 15 – Now

Freelance Web Developer

- Write well designed, testable, efficient code by using best software development practices.
- Create website layout/user interface by using standard and modern HTML/CSS practices.
- Integrate data from various back-end services and databases.
- Gather and refine specifications and requirements based on technical needs.
- Create and maintain software documentation.
- Be responsible for maintaining, expanding, and scaling client's website.
- Stay plugged into emerging technologies/industry trends and apply them into operations and activities.
- Cooperate with web designers to match visual design intent.

Jan 17 – Mar 18

Tech Lead – Flying Chalks

- Build a custom CMS and admin panel to support business operations.
- Perform security audits and fix several vulnerabilities.
- Reduce website load time by caching DB queries and reduce assets' (images & scripts) sizes.
- Developing version 2 of the website using Laravel 5.4 and Vue.js
- Building a live private chat and group chat system.
- Build analytics and charts into admin panel for better operation monitoring.

Jun 16 – Jan 17 **Web Developer – Inncee**

- Worked on the backend of Inncee's eCommerce data analytics web app. (Laravel Framework)
- Helped to write API to fetch data from Shopify which is Inncee's first integrated eCommerce platform.
- Developed a data check app to help maintain data integrity.
- Developed a system to automatically email support when the severe bug occurred.

Feb 16 – May 16 **PHP Developer Intern – RunSociety**

- Worked on the backend of RunSociety's new Sports ticketing website 'Sapcebib.com'.
- Assisted the CTO in various tasks from writing controllers to unit testing.
